Profession - Student, Explorer

Born on November 5, 2004, in Laxmanpur, a village in Pratapgarh, Uttar Pradesh. I discovered my passion for technology early on. From visiting neighbors to play my favorite game, GTA Vice City, to receiving my own PC at age 12. Same time I got inspired by Sir Sundar Pichai, my journey has been fueled by a fascination for innovation & business with learning and playing on computers, first HTML code written in 6th class. This passion has driven my continuous exploration & growth in the tech field, shaping the foundation for my career aspirations.

I am proficient in my skills and have more belief in practically starting & doing things, the ability to create things (Projects, website or any content) visually, functionally & appealing. My keen eye for capturing captivating visuals is also evident in my passion for photography & learning to play guitar.

EXPERIENCE

- Marketing Intern & Campus Ambassador**
Times Prime · May 2024 - Present
Promoted Times Prime products and organized events for them.
